

# Implementing Contemporary Grazing on Farm Field Day

## Graeme Hand

Holistic management, reducing risk  
Functional soils, perennial pastures &  
Rotational grazing

**Part of the "Risk, Profitability & Resilience in a Changing Climate" Series.**

**"Learn how to manage for what you want"**

An on Farm "Contemporary Grazing" field day will be held on Thursday  
31st March, 10am to 3.00pm

The field day will focus on designing trials, monitoring and corrective  
action at Yarrock Farms, 713 Yarrock Rd, Kaniva

### **Topics include:**

- Stock densities, pasture utilisation and recovery times
- Planning & design
- Suitable infrastructure
- Selecting and breeding animals that are suitable for "Contemporary grazing"

Refreshments provided

**Bookings essential – tickets are FREE. RSVP Wednesday 30th March.**

*Fully funded through the Sustainability Fund in partnership with the  
Department of Environment, Land, Water and Planning, this forum will be  
presented by Graeme Hand.*
